# Retraction: Behaviour, morphology and microhabitat use: what drives individual niche variation?

Raul Costa-Pereira and Jonathan Pruitt

*Biol. Lett.* **15**, 20190266. (Published online 5 June 2019) (doi:10.1098/rsbl.2019.0266)

Following publication of the article by Costa-Pereira & Pruitt [1], the journal was made aware of potential problems with the associated raw data collected by Pruitt J. An investigation into the data detected duplicated values and as such, results drawn from these data cannot be considered reliable and the journal has decided to retract the article accordingly.
